

## Best-in-Class 3D Laser Scanning & Drone Services Deliver ROI

Comprehensive. Accurate. Faster Turnaround.

**CONSTRUCTION VERIFICATION:** Enable all stakeholders involved with accurate and appropriate data from field measure to construction verification/ As-built.

### ENHANCED FIELD MEASURE

- Interior and Exterior
- Any 2D or 3D format
- PLS Survey oversight

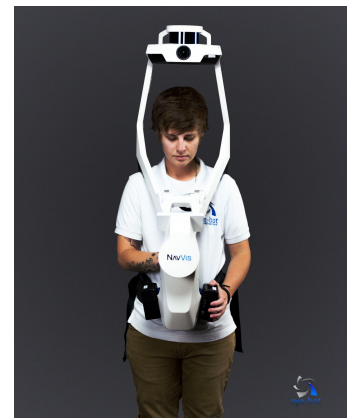

### SCAN-BIM

- Revit deliverables
- Automated workflows

## Data Classes Available - Any or All

- **Terrestrial Laser Scan**
    - 2-4mm accuracy
    - \$.18-\$.22 per sq ft
  - **Drone Scans**
    - 2-5 CM accuracy
    - \$.01-\$.02 per sq ft
  - **Mobile Mapping System**
    - CM Level Accuracy
    - \$.08-\$.12 per sq ft
    - Up to 400k ft per day
- Data fusion available for any service; daily minimums apply

## Best-in-Class Data

Architectural firms benefit from Eye-bot's combined 3D Laser Scanning and Drone Services. Early stages of site documentation and conceptualization, to monitoring construction progress and verifying as-built accuracy, our detailed data will provide your firm with complete digital records of any site affordably, regardless of size.
